

OUR PRODUCTS

Stainless Steel Braided Flexible Faucet Connector

Highest quality production. Highest strength. Highest European standard for faucet connectors. Longest warranty.

Suitable for drinking water (REACH). EN13618 standard. Up to 250 kg tensile strength. Burst proof up to over 100 bar. Rust proof.

3/8FxM10x1, 3/8FxM8x1, 1/2FxM10x1

Stainless Steel Braided Flexible Sanitary Connector

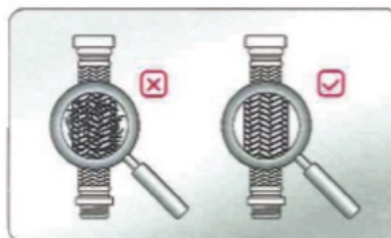

3/8Fx3/8F, 1/2Fx1/2F, 1/2Fx1/2M

Stainless Steel Shower Hose

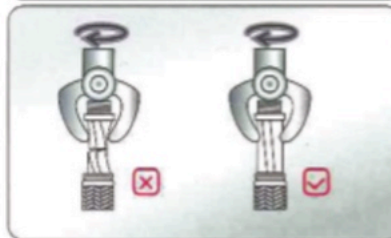

Shower pleasure for years. Suitable for drinking water.

1/2Fx1/2F, 30-200cm

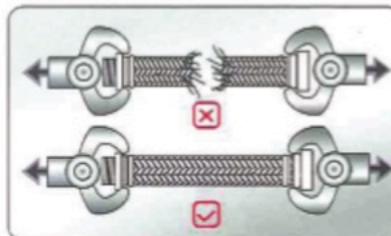

- American Standard AISI 304 stainless steel wires ensure a smooth surface and rust free.

- Core components made from European Standard CW614N brass, ensures a superior mechanical performance and avoids the risks of twisting during installation.

- High quality and standard EPDM inner tube has no bad smell, toxic and carcinogen harmful materials free, more endurable to harsh conditions and high temperatures and provides a problem-free water flow.

- With our strict internal quality system, we are producing the highest quality flexible connectors exceeding international tensile strength test and burst-resistant up-to very high water pressures.

- Risk-free with international coverage insurance.
